McGuire, Mickey, Tenn. State Trooper who is among those who took Ray from Memphis to Nashville:

While to 9/77 I did not see his name in any FBI records it and his picture are in the Marsha Vande Berg Tennessean story of 6/11/77. This is in the MFO Ray Escape file, 88-1005?-39.

McGuire is no longer a trooper.

Would he be the mysterious source claimed to have proof that Ray had a conspiratorial meeting in Portugal used by the House assassins committee to get continued?
